

Amendment to the Resolution of the Board of Directors
Villas of St. Andrews Homes Association, Inc.

May 12, 2016

After thoughtful consideration and an open meeting for all homeowners convened on April 14, 2016, the Architectural Review Committee (ARC) proposed the following amendment to the Resolution of the Board of Directors approved on September 6, 2012:

“Entry Doors and window shutters should be painted black, brown, house or trim colors, or an accent color that compliments the house and trim colors. The ARC will evaluate the request and forward its consensus opinion to the Board of Directors for final action. The Board of Directors will be solely responsible for final acceptance or rejection of accent colors.”

This Amendment to the Resolution was approved by the Board of Directors on May 12, 2016.
